Forecast for Friday 02 Jul 2021

Weather: Some areas of low cloud in the east around dawn, lifting and breaking during the morning. Fewer clouds in the west but a risk of mist and shallow fog in prone valleys. Dry with sunny spells developing otherwise but a risk of showers in the afternoon, perhaps with the odd heavy one later, with a low risk of thunder. Any showers will die away during the evening, with clear skies returning.

Chance of cloud free mountain/hill tops above 600m: 30% in the east but 80% in the west at dawn, then becoming 95% or more for all areas by noon.

Visibility: Mediocre initially, either in cloud with cloud bases around 300-400m early morning or in valleys, with mist and shallow fog. Improving through the morning to become good or even very good, with distant hills clearly visible.
